The old days of a simple spotlight are long gone.
Things sure have changed. Used to be a simple spotlight and a dusty stage was all that was needed. Maybe you could blame cable TV or the internet. Whatever it is, today’s audience expects more and you have to deliver. You need to light every corner. You need sound that everyone can hear. You need a stage with lots of moving objects. Most of all, you need a resource that can give you all those things, safely and securely. The Design & Build Division of Production Advantage can give you everything needed to create a performance environment to be proud of.

Design with performance in mind

The design team at Production Advantage can tell you what’s needed in your existing space or the new venue you have on paper. All you have to do is tell us what you want to be able to do in it. We’ll take it from there. Our team of professionals can analyze what you have and specify what you need. Then we’ll give you all the data and drawings needed to get your Board to approve what you want to have done.

Building with your budget in mind

Our build team can take any plan, one we created or one you give us, and make it a reality. In fact, we can safely install almost anything that hangs or moves. All done with an eye on the bottom line. After all, we’re experts at getting the components you need, when you need them, always at a reasonable price.

We won’t stop there. We will provide your personnel with the training they need so that everything operates smoothly. If there’s ever a problem, we’re only a phone call away.

System Installation

We provide the installation of a wide range of systems and equipment for theatre, school and university, museum, houses of worship, civic facility, studio, and presentation halls.

• Line sets, pipe grid and truss systems
• Drapery and scenery
• Staging and risers
• Theatrical, studio, and architectural lighting
• Power distribution, dimming and control
• Manual and motorized hoist and rigging systems
• Audio presentation and intercom systems

Project Management

We’ll manage all aspects of your next project, everything from design and construction right through to opening night.

• Coordination with administrative, facility and technical staff, directors and designers, architects, general contractors and engineers
• Equipment selection and procurement
• Vendor, supplier, and personnel resourcing
• Budget, scheduling, and management of deliverables
• Training and tutorials
• Existing facility retrofit or new venue construction

Inspection and Repair

You can rest easy once you’ve had a complete inspection of your facility by one of our certified professionals. We will also provide any necessary repairs to all systems and equipment.

• Theatrical rigging inspections by ETCP certified professionals
• Fire proof treatment and certification of drapery and scenery
• Theatrical lighting and dimming inspections
We can give you everything needed to turn your space into a venue everyone will be proud of.

- Safety Inspections
- System Installation
- System Design
- Project Management
- Budgets & Schedules
- Operation Training
- Code Compliance
- Theatrical Rigging
- Automated Rigging
- Theatrical Lighting
- Power Distribution
- Dimming & Control
- Drapes & Scenery
- Staging & Risers
- ETCP Certified

Production Advantage
INCORPORATED
One of the most important components of Brown Ledge Camp is its theatre program. Over the past two years Production Advantage has helped us greatly in bringing our lighting grid, lighting fixtures, curtains, and back stage rigging up to date. Their expertise and understanding of our needs simplified a set of daunting decisions. Importantly, they were a pleasure to work with. We couldn’t be happier with the result!

Bill Neilsen, Director
Brown Ledge Camp

Production Advantage turned our designer’s ideas into a terrific new experience for our visitors. We couldn’t be happier.

Jane Williamson, Museum Director
Rokeby Museum

Production Advantage recently installed a beautiful curtain in our 200-seat theater at our facility. We are thrilled to be able to use our theater to its full capacity this year during our year-round programs. The staff at Production Advantage was a pleasure to work with and we, at Camp Ta-Kum-Ta, would highly recommend them.

Hattie Johnson, Director of Development
Camp Ta-Kum-Ta

Production Advantage worked with us to update our stage lighting which had been in place since 1972. They listened and strived to work within the confines of our budget. They came up with a solution that was a significant improvement over what we had and was affordable. A big thank you for the great help.

David Tisdell, Drama Director
Browns River Middle School

ETCP Certified
Means Safety First
Production Advantage is recognized as an employer of ETCP Certified Technicians. The Entertainment Technician Certification Program (ETCP) has brought together an unprecedented group of industry organizations, businesses and individuals to create a rigorous assessment process for professional technicians. ETCP focuses on disciplines that directly affect the health and safety of crews, performers, and audiences. For more information about the ETCP professional certification program and what it means to you please visit www.etcp.plasa.org.
